

*In so many cases, you don't use insurance until the most challenging times in your life. You don't want to think about the worst that could happen - but you need to think about it. It can protect you and your family from financial hardship.*

*Good insurance is an act of care... here's why.*

# “Well at least the pizza was good.”

**Cara's first shot at making supper for her family could've been more expensive than take-out.**

Cara was excited - she was taking a cooking class and for the first time, her parents had entrusted her to put her new skills to the test and make supper for the whole family. She knew just what to make... her favourite: homemade pizza!

Just like in class, she put the pizza stone into the oven to heat up and made the dough from scratch. Everything was going perfect! She even made sure it was a kind her little brother liked - pepperoni.

The smell was intoxicating. She took the pizza stone out of the oven and put it on the counter for the big reveal, but... she had forgotten to put something underneath it. Her mom and dad grimaced as the smell of melting plastic permeated the room. The countertop now had a big pizza-shaped burn.

Thanks to her parents' comprehensive property coverage through their SGI CANADA Home Pak III, the counter got replaced and Cara learned an important lesson about cooking.
