

In so many cases, you don't use insurance until the most challenging times in your life. You don't want to think about the worst that could happen - but you need to think about it. It can protect you and your family from financial hardship.

Good insurance is an act of care... here's why.

"I guess hardwood isn't that hard."

New furniture almost meant a new floor for Dennis.

Dennis' home was a labour of love - he bought it when it had seen better days and worked hard to bring it back to its former glory. Crown moldings, a clawfoot tub and restored, original hardwood floors - this was what the house was meant to look like!

With the renos nearly complete, it was time for Dennis to get new furniture. He decided to splurge and got a whole new living room set fit for his castle.

He thought he would save a few dollars on delivery and get his buddies to help him move in the new furniture. Things were going along great until... one of them lost their grip on his new chair. It dropped with a thud and the metal leg left a huge gouge in his beautiful hardwood!

Luckily, Dennis made sure to get an SGI CANADA Home Pak III for his home, including comprehensive property coverage. It covered the repairs to his hardwood, and now his living room is ready for a party!

SGI CANADA home insurance - there to protect you, your loved ones and the place you call home.
