

In so many cases, we don't need to use insurance until the most challenging times in our lives. You don't want to think about the worst that could happen or why you might need Water Protection Coverage. But you do need to think about it... it can protect you and your family from financial hardship.

We believe good insurance is an act of care... here's why.

"I thought the storm had missed me."

The basement playroom was the last place Jill wanted to find water damage.

A weekend of heavy rains caused the river near Jill's house to rise dangerously, overflowing into the backyards nearby.

Unlike her neighbours, Jill's yard seemed to be safe. Her basement was a different story. A quick check revealed smelly water pooling around the bathroom shower drain and a wet patch on the opposite side of the basement... right next to her kids' playroom. Both problems could be traced back to the river.

A quick call to her broker set Jill's mind at ease. She'd recently added **Water Protection Coverage** to her SGI CANADA home insurance policy and all clean-up and fixes would be covered.
