

In so many cases, you don't use insurance until the most challenging times in your life. You don't want to think about the worst that could happen - but you need to think about it. It can protect you and your family from financial hardship.

Good insurance is an act of care... here's why.

“Trying to put up those lights didn't exactly work well.”

Adam and Diane's wayward ladder almost made for an un-Merry Christmas.

After a big sale on Christmas lights, Diane came home with several boxes and a surprise for her husband, Adam - this was going to be the year they completely decked out their house for the holidays!

It was going to be a big job so they borrowed their neighbour's tall ladder so they could reach every nook and cranny. The first string went up without a hitch, as did the second and third. But the fourth... this is where they needed to get to that top part of the roof.

They went to move the ladder into place and it looked like they had it secured. Adam and Diane started untangling the next set of lights from the packaging when they heard the scratch and clang! The ladder had tipped over, taking their eavestrough with it and leaving dents in their new siding!

With SGI CANADA's Home Pak III, Adam and Diane were covered - they were able to get the damage repaired so that they could turn on their lights in all their holiday glory.

SGI CANADA home insurance - there to protect you, your loved ones and the place you call home.
